EDUCATION

The National Institute of Engineering
Bachelor of Engineering in Computer Science
Mysuru, Karnataka

2023 – 2027
CGPA: 8.34/10

Holy Cross Matric. Hr. Sec. School
Higher Secondary Certificate

2023
Salem, Tamilnadu

VIRTUAL EXPERIENCE

DELOITTE DATA ANALYTICS JOB SIMULATION – FORAGE

[Certificate]

Virtual Experience

Feb 2025

- Analyzed business data using Excel and created an interactive Tableau dashboard to derive insights.
- Performed data classification and analysis to identify patterns and support business decision-making.

TATA GENAI-POWERED DATA ANALYTICS JOB SIMULATION – FORAGE

[Certificate]

Virtual Experience

Sep 2025

- Performed EDA using GenAI tools to assess data quality and identify customer delinquency risk indicators.
- Proposed an AI-driven strategy for delinquency risk assessment and automated collections.

PROJECTS

SUPPLY CHAIN ANALYTICS

[GitHub]

Python, SQL, PostgreSQL, Power BI

- Analyzed 180K+ order records using Python and SQL to uncover sales, profit, customer, and delivery trends.
- Built an interactive Power BI dashboard and identified a 57.28% late-delivery rate, highlighting a critical operational improvement area.

TRAFFIC ACCIDENT DATA ANALYSIS, KARNATAKA (2020–2023)

[GitHub]

Python, Pandas, Matplotlib, Seaborn

- Analyzed 4 years of accident data using Python and Pandas to identify high-risk periods and accident-prone patterns.
- Identified accident trends through time-series analysis and heatmap visualizations to highlight high-risk periods and locations.

MULTI-CONTAINER WEATHER APPLICATION

[GitHub]

Python, Flask, Docker, Docker Compose, Jenkins

- Developed a multi-container weather application with separate Flask backend and Nginx frontend services, orchestrated using Docker Compose.
- Implemented a Jenkins CI/CD pipeline to automate container builds, deployment, and runtime verification.

SECURE IMAGE STEGANOGRAPHY SYSTEM

[GitHub]

Python, Flask, Cryptography, NumPy, Pillow

- Built a secure web application combining LSB steganography and AES encryption for password-protected data embedding and extraction.
- Evaluated system performance using 4 key metrics: MSE, PSNR, payload capacity, and RGB histogram analysis.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Libraries: Pandas, NumPy, Matplotlib, Seaborn

Tools & Platforms: GitHub, VS Code, Excel, Power BI, Tableau

Databases: PostgreSQL, MySQL

Web Technologies: HTML5, CSS3

Core Subjects: Data Structures & Algorithms, OOP, Database Management Systems, Operating Systems, Computer Networks

CERTIFICATIONS

Google Data Analytics Professional Certificate – Coursera

[Certificate]

Issued: Mar 2025
